# Precision Manufacturing, Made in India.

Annika Technologies is an Indiamart-verified manufacturer based in Kalka, Haryana, delivering precision-engineered PCB assemblies, wire harnesses, and electrical components to industrial and OEM clients across India.

2016  
ESTABLISHED

20+  
EXPERT TEAM

PRODUCTS LISTED

WHAT WE STAND FOR

- Precision Surface Mount Assembly
  - 25,000+ Hr Indicator Lifespans
- Custom Wire Harness Looming
  - Indiamart-Verified Manufacturer

CORE CAPABILITIES

**PCB Assembly**  
Single and double-sided PCB assemblies using high-quality copper tracks, built to rigorous industrial standards.

**Indicators**  
Neon and LED indicator manufacturing with 25,000+ hour operating life and exceptional stability.

**Wire Harnesses**  
Custom wire looming and harness assemblies with precise routing, bundling and connector fitments.

## OUR FACILITY

# Manufacturing Unit

Our 6,000 sq. ft. production facility in Kalka, Haryana houses dedicated lines for wire processing, crimping, sleeve work and moulding, run by a team of 20+ skilled professionals.

# Our Equipment

Every machine in our facility is purpose-selected for the precision, throughput and reliability our production requires.

WIRE PROCESSING

Wire Cutting & Automatic Crimping Machine

Quantity: 1

WIRE PROCESSING

Wire Cutting Machine

SLEEVE PROCESSING

Sleeve Cutting Machine

**SLEEVE PROCESSING**

**Sleeve Shrinking Tunnel/Machine**

**WIRE PROCESSING**

**Wire Cutting, Dipping, Crimping & Twisting Machine**

**CRIMPING**

**Manual Crimping Machines**

Quantity: 5

**CRIMPING**

**Automatic Crimping Machines**

Quantity: 2

**MOULDING**

**Vertical Moulding Machines**

Quantity: 3

QUALITY ASSURANCE

# Our Quality Protocol

Our dedicated QC department inspects every item for design, quality and finish before it leaves the facility. No component ships without clearing every checkpoint.

- ✓ Visual inspection of all incoming components
- ✓ Electrical performance testing on finished assemblies
- ✓ Durability and stress assessment
- ✓ Dimensional accuracy verification
- ✓ Final QC sign-off before dispatch

**Indiamart Verified**

Trusted Sole Owner Establishment

**Made in India**

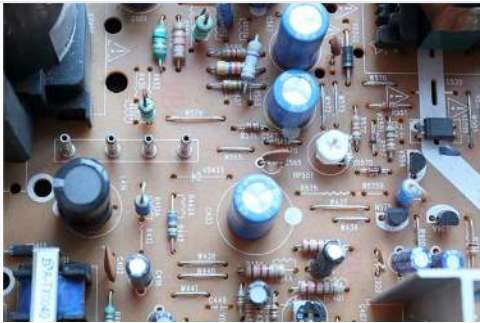

Supporting Local Manufacturing

**In-House QC**

Dedicated Quality Department

# PCB Assembly

Precision PCB card and sub-assembly manufacturing for industrial and OEM electronics.

## PCB Card Assembly

High-precision single-sided assemblies with 35-micron copper and HASL finishing for extreme shelf life.

|         |           |
|---------|-----------|
| VOLTAGE | 210V      |
| FINISH  | HASL      |
| COPPER  | 35 Micron |
| ORIGIN  | India     |

## Electronic Sub Assembly

Integrated board builds for complex electronic products, rated for 20A current stability.

|           |        |
|-----------|--------|
| CURRENT   | 20A    |
| STABILITY | High   |
| USAGE     | OEM    |
| PACKAGE   | Packet |

# Wire Harness

Custom wire harness looming and connector assemblies for industrial and control applications.

### Electronics Wire Harness

Customized PVC insulated copper wire harnesses engineered for heavy-duty industrial machinery.

|          |             |
|----------|-------------|
| PINS     | 2-12 Pin    |
| MATERIAL | Pure Copper |
| JACKET   | PVC         |
| RATING   | High Temp   |

### Panic Switch Harness

White wire harness assembly for panic switch applications.

|             |              |
|-------------|--------------|
| COLOR       | White        |
| APPLICATION | Panic Switch |
| INSULATION  | PVC          |

### JST Connector Wire Harness

Multi-color lead wires pre-terminated with JST connectors.

|                |                     |
|----------------|---------------------|
| CONNECTOR TYPE | JST-Style           |
| LEAD COLORS    | Yellow / Red / Blue |
| INSULATION     | PVC                 |

### Multi-Circuit Wiring Loom

Twisted multi-conductor wiring looms with locking connectors.

|                |                 |
|----------------|-----------------|
| CONDUCTORS     | 4-Core Twisted  |
| CONNECTOR TYPE | Locking Housing |
| BUNDLING       | Cable-Tied      |

### Coiled Cable Harness Assembly

Coiled multi-strand cable harnesses with terminated ends.

JACKET COLOR  
PACKAGING  
TERMINATION

Black  
Bulk Coil  
Crimped Ends

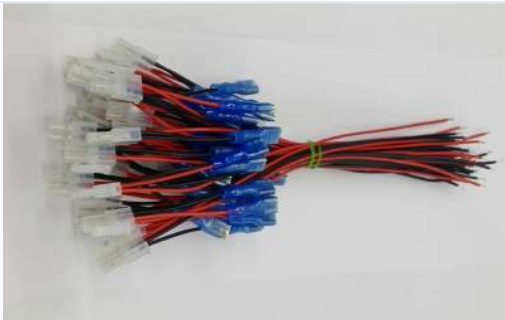

### Twisted-Pair Connector Harness

Twisted-pair harness coils fitted with white connector housings.

CONDUCTORS  
CONNECTOR TYPE  
PACKAGING

Twisted Pair  
White Locking Housing  
Coiled

### Dual-Lead Terminal Harness

Red and black leads with crimped terminal connectors.

LEAD COLORS  
TERMINATION  
PACKAGING

Red / Black  
Crimped Terminal  
Bulk

### Single-Strand Connector Cable

Single twisted-pair cable with connectors at both ends.

CONDUCTORS  
CONNECTOR TYPE  
APPLICATION

Twisted Pair  
Locking, Both Ends  
Point-to-Point

# Electrical Accessories

Power cords, switch connectors, and wiring accessories for electrical and electronic systems.

## 2 Pin AC Power Cord

Durable 2 pin AC power cord for electrical and PCB applications.

|           |                 |
|-----------|-----------------|
| PLUG TYPE | 2 Pin           |
| WIRE TYPE | Twin Core       |
| MATERIAL  | Copper          |
| COLOR     | Black and White |

## Multi Wire Harness Assembly

Industrial multi-core wire harness assembly for PCB and electrical systems.

|                |                        |
|----------------|------------------------|
| CONNECTOR TYPE | Multi Pin              |
| WIRE MATERIAL  | Copper                 |
| APPLICATION    | Industrial Electronics |
| INSULATION     | PVC                    |

## Rocker Switch Connector

Heavy-duty rocker switch assembly with connector wiring.

|             |               |
|-------------|---------------|
| SWITCH TYPE | Rocker        |
| CONNECTOR   | 2 Pin         |
| MATERIAL    | ABS Plastic   |
| APPLICATION | Power Control |

# Power Cords

AC power cords in multiple configurations for electrical and electronic devices.

## Power Cord (White)

White power cord for electrical and electronic applications.

|            |       |
|------------|-------|
| PLUG TYPE  | 2 Pin |
| COLOR      | White |
| INSULATION | PVC   |

## Power Cord (Black)

Black power cord for electrical and electronic applications.

|            |       |
|------------|-------|
| PLUG TYPE  | 2 Pin |
| COLOR      | Black |
| INSULATION | PVC   |

PRODUCT CATEGORY

# Domestic & Industrial Indicators

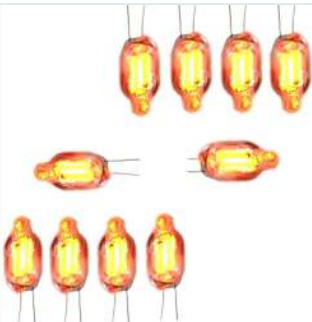

Neon and LED indicator lamps and switch indicators for panel and equipment signaling.

### Neon Indicator Lamps

Extended-life signaling modules designed to withstand up to 135°C in continuous industrial operation.

|         |            |
|---------|------------|
| LIFE    | 25,000 Hrs |
| CURRENT | 25 Amps    |
| TEMP    | 135°C      |
| TYPE    | Industrial |

### LED Neon Indicator

High-visibility control panel indicators featuring low-wattage consumption and universal mounting.

|          |         |
|----------|---------|
| VOLTAGE  | 24V DC  |
| MOUNTING | 22.5 mm |
| BODY     | Plastic |
| WATTAGE  | 12-24V  |

### Domestic Switch Indicator

Switch indicator for domestic electrical applications.

|             |           |
|-------------|-----------|
| LEAD TYPE   | Pre-Wired |
| APPLICATION | Domestic  |
| TERMINATION | Pin Type  |

### Industrial Switch Indicator

Switch indicator for industrial control applications.

|             |                    |
|-------------|--------------------|
| LEAD TYPE   | Pre-Wired          |
| APPLICATION | Industrial Control |
| TERMINATION | Pin Type           |

### 3-Pin Switch Indicator

Three-pin switch indicator for electrical applications.

PINS  
LEAD TYPE  
TERMINATION

3-Pin  
Pre-Wired  
Pin Type

### Switch Indicator Assembly

Switch indicator assembly for panel and equipment applications.

APPLICATION  
TERMINATION

Pre-Wired  
Panel Mount  
Pin Type

### Neon Indicator with Spring Contact

Neon indicator lamps with resistor and spring-loaded contact leads.

TYPE  
CONTACT  
INSULATION

Neon  
Spring-Loaded  
Heat-Shrink

### Neon Indicator Lamp Bundle

Neon indicator lamps with red/black heat-shrink leads.

TYPE  
LEAD INSULATION  
LEAD COLORS

Neon  
Heat-Shrink  
Red / Black

### Indicator Lead Wire Set

Bare-ended black lead wires for indicator lamp assembly.

WIRE COLOR  
LEAD ENDS  
APPLICATION

Black  
Tinned  
Indicator Assembly

### Neon Indicator with Terminal Springs

Neon indicator assemblies with coiled terminal spring leads.

TYPE  
TERMINAL  
TERMINATION

Neon  
Coiled Spring  
Crimped

### LED Indicator Lead Set (Red)

Black lead wires terminated with red LED indicator tips.

LED COLOR  
WIRE COLOR  
TERMINATION

Red / Green  
Black  
Crimped

### Indicator Switch Assembly

LED indicator leads fitted with black clip-mount switch housings.

HOUSING
